# KEYING/CODING FOR IEL/IET HANDLE AND IEEE GUIDE RAIL

Based on the IEEE standard guide rails and handles can be coded to avoid the insertion of a wrong board into the wrong slot.

CERTIFICATIONS

RoHS COMPLIANT

EN 45545

FEATURES

4 possible positions, resulting in 64 codings per card guide; when coding the upper and lower card guide, 4096 codings will result

Inserted in the chambers of the codable card guides as well as in the rear side of the die cast block of the handles type IEL or IET

The keying/coding pegs prevent plug-in units to be mounted in wrong slots
