

NVENT CADDY LIGHT SWITCH PROTECTOR PLATE

The nVent CADDY Light Switch Protector Plate is an innovative solution designed to safeguard mud ring openings. With an improved installation method featuring a keyhole slot, installers only need to loosen the device screw, position the protector plate and retighten without needing to remove the screw. Designed to fully cover mud ring opening and eliminate drywall mud from entering the box.

FEATURES

- Low profile design enables more precise cut around mud ring and device opening
- Used for toggle and decorator switches
- Can be installed side-by-side to form multiple gang options
- All holes covered with protective sticker to prevent damage from paint or drywall mud during installation
- Breakaway tabs to allow access to adjustable mud ring screws
- Multiple holes for attaching cover plate to device
