

# CABLE TO STEEL, HEAVY DUTY, VS, STEEL PIPE OR FLAT SURFACE, 4/0 CONCENTRIC, WEAR PLATES

#### 目录编号

# HDVSC2QW

Heavy duty connections were originally developed to be used on reclaimed cable. The heavy duty connections use a larger size connection cavity in the mold and a larger size welding material than the equivalent standard duty connection.

The larger size welding material supplies extra BTU's to melt the heavy oxide coating on the conductor and to overcome some severe field conditions. Heavy duty connections eliminate cutting the run conductor on certain types of connections, reduce cable cleaning requirements for old or reclaimed cable, and increase reliability under adverse field conditions.

Heavy duty connections are increasingly being specified for copper-coated steel conductor connections.

#### CERTIFICATIONS

#### 功能

Forms a permanent, low resistance connection

Provides a molecular bond

nVent ERICO Cadweld Exothermic Connections are rated with the same current capacity as the conductor

Portable installation equipment with no external source of power required

Installers can be easily trained to make nVent ERICO Cadweld Exothermic Connections

Connections can be visually inspected

模具系列: VS Mold Family			
连接端: Steel Pipe or Flat Surface			
导体尺寸: 4/0 Concentric			
导体公称外径: 13.41mm			
管道尺寸: 24in min			
外径 (OD): 609.6mm min			
NB/DN: 600 min			
Mold Split: Vertical			
分体坩埚: No			
耐磨板: Yes			
Number of Wear Plate Sets: 1			
仅模具: No			
焊药: 200 or 200PLUSF20, Sold Separately			
Handle Clamp: L160 and B396, Sold Separately			
定价关键: C			
易用: Preferred			

## ADDITIONAL PRODUCT DETAILS

For applications such as computer room, tunnel or other low-ventilation areas, specify a smokeless nVent ERICO Cadweld Exolon mold. Add an XL prefix to the standard mold part number when ordering (for example, a TAC2Q2Q becomes XLTAC2Q2Q). Similarly, nVent ERICO Cadweld Exolon welding material is also designated by the XL prefix (for example, 150 becomes XL150).

A test weld should be made to check for the possibility of burn through on thin sections and to determine detrimental metallurgical effects.

HD-XX-X-XX-XX-L-M-W			
HD	Heavy Duty Designation		
хх	Mold Family		
х	Price Key		
хх	Conductor Code		
хх	Pipe Size		
L*	Split Crucible	Crucible section is split on molds designed with horizontal opening for easier cleaning	
M*	Mold Only		
W*	Wear Plates	Reduce mechanical abrasion of molds at cable entry points
